

NORGANIX

Benefits to the Buyer

Top Ten Benefits to the Buyer	NORGANIX	Typical Sealants
Eliminates 99.9% of Salmonella, Listeria, E.Coli, Legionella and other pathogens DEEP WITHIN concrete	✓	
Eliminates 99.9% of Bacillus, Clostridium, mold and mildew and other spore-formers DEEP WITHIN concrete	✓	
Penetrates a full 8-inches for true “integral” waterproofing (others at best 3 1/2 inches)	✓	
Hydrates unused Portland to close down capillaries to seal out moisture, vapors, pathogens and contaminants	✓	
Improves compressive and flexural strength of concrete by 30% to minimize cracking and hazardous dusting	✓	
Permanently halts internal water migration and prevents contaminant ingress from any direction	✓	
Virtually eliminates permeation and transmission of hazardous gasses such as radon and methane	✓	
Reduces leaching and efflorescence, eliminates bleed water, resists etching and discoloration from acids	✓	
Improves thermal resistance (R-factor increases up to 20 percent) and thereby reduces energy costs	✓	
Is completely odorless and non-toxic with zero VOC or VOS content	✓	

What lives in your concrete?
